**PUBLIC NOTICE**

**November 1st, 2020**

**The township of Low is working for you!**

Road work was completed on Kealey road.

Trees and brush were cut, ditches were dug to facilitate drainage, a damaged culvert was replaced and gabion stone to protect the culvert from erosion.

This road work was completed in a joint effort by our public works crew and local contractors.

This road work was made necessary due to increased heavy traffic caused by the sand pit near by. This operation will greatly contribute to the municipality's tax base via the quarry and sand pit tax.
